

Policy conditions

TAF Special Life Insurance

With a term life Insurance policy from TAF, you can best protect your dependents from the unwanted financial consequences of premature death.

Your TAF Special Life Insurance is an agreement between you and the insurer. Associated with this agreement are the insurance terms and conditions or policy conditions. The policy conditions tell you exactly what you are insured for and what the rights and obligations of both the insurer and yourself are. The policy conditions are part of the policy issued by the insurer.

Please note that no rights can be derived from this document. The Dutch policy conditions apply to your insurance. This translation of the Dutch policy conditions has been compiled with the greatest possible care. If, however, different interpretations are possible between the translated conditions and the original Dutch conditions, the Dutch terms and conditions will prevail.

Policy conditions

TAF Special Life Insurance

1. Definitions

The following definitions are used in these General Insurance Terms and Conditions:

Accident:

Violence that occurs suddenly and involuntarily to the body of the insured person(s). This violence occurs beyond the control of the policyholder(s), the insured person(s) and beneficiary or beneficiaries and comes from outside. This violence can also be medically objectified directly and without the cooperation of other causes and results in serious physical injury to the insured person(s).

Addendum:

Any additional appendix to the policy issued by the insurer that includes a revision of, or an addition to, the general insurance conditions and/or the policy schedule.

Administrator:

TAF BV, based in Eindhoven, The Netherlands.
Postbus 4562, 5601 EN Eindhoven, The Netherlands.
Telephone: +31(0)40-707 38 90
E-mail: info@taf.nl

TAF is under supervision of the 'Autoriteit Financiële Markten' and is known under the AFM permit number 12019919.

Application form:

The document that was signed by the policyholder(s), the insured person(s) and the premium payer that resulted in the policy.

Beneficiary:

The (legal) person(s) to whom the insured amount must be paid.

Broker:

The legal person through whose mediation services the insurance was concluded.

Commencement date of the insurance:

The date on which the insurance takes effect, as stated in the policy schedule.

Duration of the insurance:

The period between the commencement date and the end date of the insurance.

End date of the insurance:

The date stated in the policy schedule on which the insurance is terminated without payment, if the insured person(s) is/are alive at that time.

Excessive alcohol consumption:

Alcohol consumption as a result of which the alcohol content in the blood arrives at a minimum limit of 0.5. However, the said limit cannot exceed 0.2 during the first five years after the receipt of the driving licence.

Fraud:

Intentionally providing incorrect or incomplete information to obtain or maintain an insurance or benefit.

Insurance:

The agreement on a life insurance policy.

Insured capital/amount in the event of death:

The insured capital/amount stated on the policy schedule.

Insured person:

The natural person(s) on whose life the insurance has been taken out.

Insurer:

Chubb Life Europe SE (Trading name: Chubb Life), Dutch brand office, Marten Meesweg 8, 3068 AV Rotterdam, Registered with the Chamber of Commerce under number 24414052. Chubb Life Europe SE has a license from the 'Autorité de Contrôle Prudentiel et de Résolution' (ACPR). Registered office: La Tour Carpe Dien, 31 Place des Corolles, Esplanade Nord, 92400 Courbevoie, Frankrijk.

In the Netherlands, it is subject to supervision by the Netherlands Authority for the Financial Markets (AFM). TAF BV acts as the insurer's agent of the insurer.

eenvoudig transparant

Policy conditions

TAF Special Life Insurance

Malevolent contamination:

The spreading (whether active or not) – committed outside the scope of one of the six forms of acts of war as referred to in Article 3:38 of the Financial Supervision Act – of germs of a disease and/or substances which as a result of their (in)direct physical, biological, radioactive or chemical effect may cause injury and/or impairment of health, whether resulting in death or not, to humans or animals and/or may cause loss of or damage to property or may otherwise impair economic interests, in which case it is likely that the spreading (whether active or not) – whether or not in any organisational context – has been planned and/or carried out with a view to effect certain political and/or religious and/or ideological purposes.

Mortgage related:

The insurance is mortgage-related if any payment is intended for the repayment of a mortgage loan taken out for the purchase, renovation or improvement of the home that serves as the main residence. The confirmation of receipt states whether or not the insurance is mortgage related.

Policy:

The written record of the insurance agreement concluded between the policyholder and the insurer, consisting of the application form, the policy schedule, these general insurance terms and conditions and any additional clause sheets.

Policyholder:

The (legal) person(s) who takes out the insurance or his legal successor(s).

Policy schedule:

The summary of the benefits under the policy, the premium due and any special conditions that apply.

Premium:

The periodical amount owed by the policyholder to the insurer under the policy, as stated on the policy schedule.

Premium due date:

The date on which the premium is payable according to the policy schedule.

Preventative measures:

By government and/or insured persons and/or third parties taken measures in order to reduce immediate danger of terrorism and/or malevolent contamination or – in case this danger has been realised – limit the consequences.

Suicide:

The intentional or unintentional ending of one's own life.

Terminal illness:

The diagnosis of a disease that is expected to lead to the death of the insured person within 12 months. This diagnosis must be supported by a medical specialist and confirmed by an independent medical advisor to be appointed by the insurer.

Terrorism:

Any violent act and/or conduct – committed outside the scope of one of the six forms of acts of war as referred to in Article 3:38 of the Financial Supervision Act [Wet op het financieel toezicht] – in the form of an attack or a series of attacks connected together in time and intention as a result whereof injury and/or impairment of health, whether resulting in death or not, and/or loss of or damage to property arises or any economic interest is otherwise impaired, in which case it is likely that said attack or series – whether or not in any organisational context – has been planned and/or carried out with a view to effect certain political and/or religious and/or ideological purposes.

2. Basis of the insurance

2.1 The information and statements provided by the policyholder and/or the insured to the insurer, form the basis of the policy. This includes, but is not limited to, information given on the application form, medical questionnaire(s) and (issued) health certificate(s) and during medical examination(s).

Policy conditions

TAF Special Life Insurance

eenvoudig transparant

The policyholder must inform the insurer, prior to taking out the insurance, of all facts of which he is or should have been aware and of which he knows or should have understood that the insurer's decision as to whether or not he is prepared to take out the insurance depends on, and if so, under what conditions, whether or not he can depend on it (statutory duty of disclosure).

- 2.2 The insurer reserves the right to ask for proof of the information provided before accepting the policy. However, if the policy has been accepted without such proof having been requested, or if it has been requested but has not been provided, the insurer reserves the right to request such evidence at any time in the future. If the policyholder and/or the insured is not able to provide proof of the information on which the insurer has relied, the insurer reserves the right to take the steps deemed appropriate by the insurer, taking into account the relevance of the information in question. Such steps can include cancellation of the policy (with or without reimbursement of premiums) or reduction of cover.
- 2.3 If it appears that the statutory duty of disclosure has not been complied with, the insurer can cancel the insurance or change the insurance to an insurance policy, with or without retroactive effect, under conditions that are acceptable to the insurer with knowledge of the true state of affairs.
- 2.4 If it appears that the statutory duty of disclosure has not been complied with, no payment shall be due if the insurer would not have accepted the insurance if it had been aware of the actual facts. If a withheld event would have resulted in a higher premium or a lower insured amount, the payment will be reduced proportionately. If a concealed event would have resulted in different conditions, only the payment that would have been included in the insurance contract based on the other conditions will be due.
- 2.5 During the term of the insurance, the policyholder can request an increase in the insured amount, an extension of the term of the insurance or a change

in the capital structure (remaining constant, annuity decreasing or linear decreasing). The insurer can ask for a written justification for the requested change in cover and is not obliged to accept it. After a medical examination of the insured, the insurer will confirm whether the change will be accepted or not, and under what conditions. With the consent of the policyholder, the insurer will issue a policy with the specific change of the cover, the date of entry into force and applicable conditions and premium. Additionally, the insured person must be younger than 70 years of age at that time.

- 2.6 If the actual age of the insured turns out to be higher than indicated on the application form, the underpaid premium will be claimed from the premium payer. If it appears that the actual age of the insured is lower than indicated on the application form, the overpaid premium will be refunded to the premium payer.
- 2.7 If the policy is lost, the insurer will issue a duplicate policy at the written request of the policyholder, after which no rights can be derived from the original policy.

3. Scope of the cover

- 3.1 The cover in the event of death applies anywhere in the world, with due observance of the provisions elsewhere in the policy and the general insurance terms and conditions.

4. Inception, duration and end of the insurance

- 4.1 The insured risks are covered from the inception date of the insurance, which is mentioned on the policy schedule, however never earlier than the date on which the first premium was paid.
- 4.2 The policyholder is entitled to terminate the insurance agreement in writing within one month after the date of issue of the first policy schedule.

Policy conditions

TAF Special Life Insurance

eenvoudig transparant

As of the moment that the cancellation reaches the insurer, the insurance contract is deemed to be terminated. Any premiums already paid shall be refunded.

- 4.3 The insurance contract shall end without prejudice to the provisions elsewhere in these terms and conditions regarding cancellation and termination of the insurance if one of the following situations occurs:
- a. on the end date of the insurance, as specified on the policy schedule;
 - b. on the date of the death of one of the insured parties mentioned on the policy schedule; the insurance will only end for the other insured party if a payment is made. The insurance also ends if both insured parties die at the same time;
 - c. on the first day of the month in which the insured person reaches the age of 85;
 - d. if the insured or the policyholder has deliberately provided or had provided incorrect information as referred to in Sections 7:928 to 7:930 of the Netherlands Civil Code;
 - e. in the event of non-payment of the first premium within 3 months of the commencement date of the insurance stated on the policy schedule;
 - f. in the case of a policy based on monthly or annual premium payments, the policyholder can cancel the insurance on the first day of the calendar month, and the notice period is one month. The written request to cancel the insurance can be sent to the administrator.

- 4.4 The insurer has the right to immediately suspend, terminate the insurance, and/or withhold any payout if:
- a. national or international sanction regulations or legislation aimed at preventing money laundering or financing of terrorism prohibit the insurer from executing the insurance;

- b. it is discovered that the policyholder, insured, or another beneficiary is listed on a national or international sanctions list;

- c. the policyholder or insured person does not cooperate in identifying the ultimate beneficial owner (UBO) of an entity that is a beneficiary of the insurance and/or refuses to cooperate in an investigation into an unusual transaction.

- 4.5 In case of a pledged policy, the insurer will inform the pledgee of the termination of the policy.

5. Non-smokers rate

- 5.1 The policyholder is entitled to the non-smoking rate if:
- a. the insured person declares before the start of the insurance agreement not to have smoked for at least two consecutive years immediately prior to the insurance agreement;
 - b. the insured person has entirely stopped smoking for at least two consecutive years after the commencement date of the insurance agreement. The policyholder must inform the administrator of this in writing.

The non-smoker's rate will commence on the next premium due date after receipt of this statement. The insurer reserves the right to request the insured person(s) to undergo a nicotine test during the period in which this insurance is taken out or during the term of this insurance. The insured person(s) is (are) obliged to cooperate in this nicotine test, on pain of forfeiture of the non-smoking rate;

- c. the policyholder is obliged to notify the administrator immediately in writing of the fact that the insured has (re)started smoking. The insurer will adjust the premium as of the next premium due date on which the insured has (re)started smoking;

Policy conditions

TAF Special Life Insurance

eenvoudig transparant

d. if, after the death of the insured party, it appears that the policyholder was not (or no longer) entitled to the non-smoking rate and failed to inform the insurer of this in writing, the insurance payment will be reduced to 60%.

5.2 Smoking means the use of, but not exclusively, cigars, cigarettes, e-cigarettes, pipe, nicotine substitutes products or therapies, cannabis, other smokable drugs and any other smokable substance with or without nicotine.

6. General exclusions

6.1 For this insurance, the right to payment does not exist, or the insurance contract will be terminated, if:

a. it appears that the insured person has made (one) incorrect statement(s) regarding his health when taking out the insurance or if it appears that the insured is otherwise acting or has acted in conflict with obligations under Title 7.17 of the Dutch Civil Code;

b. an insured person has died as a result of a crime committed by a beneficiary and/ or as a result of a deliberate act, deliberate negligence or gross negligence on the part of a beneficiary; this only applies to the extent that the payment would directly/indirectly benefit the beneficiary;

c. the death is the result of:

- participation in combat operations as a soldier in war zones during war missions and humanitarian missions. For Dutch soldiers or civil servants employed by the Ministry of Defence, an agreement has been concluded between the Dutch Association of Insurers and the Ministry of Defence. If there is a mission specially designated by the Ministry of Defence and the requirements set out in the agreement are also met, the insured amount will be paid out to a maximum of € 400.000 if the insurer can receive part of this amount back from the Ministry. The complete text of the agreement is available at www.verzekeraars.nl;

- suicide or attempted suicide. However, this only applies if the (attempted) suicide has taken place within two years after the commencement date or if the insurance has been put back into operation. The will and/or mental state of the insured person will not be taken into account in the assessment of the act or the death as a result thereof. The above does not apply if the death of the insured person is the result of euthanasia in accordance with the standards set by law and/or jurisprudence. An increase in the insured amount is considered an independent insurance for the purposes of this provision. This means that in the event of (attempted) suicide within two years after the increase in the insured amount, the insured amount applicable before the increase will be paid out;

- an aircraft accident, unless the insured is involved in this accident as:

- the passenger on an aircraft;

- a member of the regular flying personnel (unless as a test pilot);

- working for a civil air transport company;

- a member of the armed forces' reserve staff for refresher training;

- a civilian pilot of an aircraft, provided that he is legally entitled to do so.

d. it appears that the policyholder, the insured or any other interested party is included on an (inter)national sanctions list;

e. as (inter)national sanctions legislation prohibits the insurer from implementing the insurance;

f. if the policyholder or the insured party does not cooperate in determining the final beneficiary of a (legal) person who is an interested party in the insurance.

eenvoudig transparant

Policy conditions

TAF Special Life Insurance

7. Option right

7.1 The policyholder has the right to increase the insured amount every 12 months, counted from the start date, each insurance year. As an exception to Article 2.5, this increase is accepted by the insurer without further health investigation of the insured, provided all of the following conditions are met:

- the insurance was accepted upon commencement without any increase in premium;
- the increase does not exceed 15% of the last insured amount;
- the insured amount after applying the option right does not exceed twice the amount initially insured;
- the policyholder has submitted the written request for an increase at least one month before the increase date.

7.2 The right of option referred to in the previous paragraph expires:

- when the insured person reaches the age of 60;
- if the option right has not been exercised for three consecutive years;
- if the insured is wholly or partially incapacitated for work;
- if the insured has undergone treatment and/or examination by a doctor or medical specialist in the year immediately preceding the request for an increase;
 1. heart and/or vascular diseases,
 2. malignant diseases,
 3. diseases of the brain or nervous system,
 4. diabetes.

7.3 The increase takes effect on the first day of the upcoming policy year.

8. Optional child coverage

8.1 If the policy schedule states that child coverage is included, the conditions as determined in this article apply.

8.2 In the event of a pregnancy of at least 24 weeks by the insured, a payment of € 1.500 will be made to the beneficiary(ies) if the insured's child is stillborn or dies within thirty days after birth. If the pregnancy involves twins or multiples, only a single payment of € 1.500 will be made.

8.3 In the event of the death of the policyholder's children residing in the Netherlands, the beneficiary is entitled to a payout of the insured amount up to a maximum of € 7.500 per child. This payout is only applicable if the child was older than 30 days and younger than 18 years at the time of death.

8.4 If the same children are covered by multiple insurances with the insurer through the optional child coverage, only one insured amount will be paid out, which is the highest insured amount from the individual insurances with a maximum of € 7.500 per child, and in the case of article 8.2 a maximum of € 1.500 regardless of whether the pregnancy involves a single child or multiples.

8.5 This coverage ends:

- a. upon cancellation of the child coverage;
- b. upon termination of the insurance;
- c. on the expiration date of this insurance.

8.6 There is no right to a payout upon the death of children who were at least one year old at the time of the amendment date when the child coverage was added or had already been included in the family for at least a year.

eenvoudig transparant

Policy conditions

TAF Special Life Insurance

9. Optional additional payout in the event of accidental death

9.1 If the policy schedule notes that an additional payout in the event of accidental death is included, and the cause of the insured's death is solely the result of an accident that occurred during the term of the insurance and no later than 90 days before death, a one-time additional payout of € 50.000 will be made, but never more than the insured amount calculated according to articles 22.2 and 22.3.

9.2 For this coverage, no right to a payout exists if:

- a. the accident was caused by excessive alcohol consumption or by the use of pharmaceuticals, intoxicants, narcotics, or stimulants other than according to a medical prescription;
- b. the accident was caused intentionally by the policyholder, the insured, or someone who benefits from the payout;
- c. the accident occurred while committing or conspiring to commit a crime or an attempt thereof;
- d. the accident took place before the optional additional payout in case of accidental death was included on the policy schedule;
- e. the accident is due to the conscious recklessness of the insured (such as a brawl), except in cases of:
 - a reasonably necessary performance of their occupation;
 - lawful self-defense;
 - an attempt to save oneself, others, or property.
- f. the accident occurred while:
 - riding a motorcycle;
 - participating in ski races;

- diving;
- mountain climbing;
- off-piste skiing;
- participating in speed races, trials, or tests with:
 - motor vehicles;
 - motorboats;
 - motorcycles;
 - ski jumping;
 - bobsleigh or skeleton rides;
 - ice or roller hockey;
 - bungeejumping;
 - parachuting;
 - paragliding;
 - activities that are comparable to, or derivatives of, the above activities.
- g. any of the exclusions mentioned in article 6 occur.

10. Advantage and acceptance

- 10.1 The insured amounts owed by the insurer on account of the insurance will be paid out to the beneficiary or beneficiaries specified in the policy.
- 10.2 If more than one beneficiary has been designated, higher numbered beneficiaries will only be eligible if it is determined that all lower numbered beneficiaries are absent, have died or refuse to accept the benefit.

eenvoudig transparant

Policy conditions

TAF Special Life Insurance

10.3 If a beneficiary dies before a payment for which he has been designated becomes due and payable, his right does not pass to his heir or successor in title.

10.4 Equally numbered beneficiaries are eligible jointly.

10.5 A beneficiary is unworthy of receiving the benefit if the beneficiary has deliberately or recklessly caused or participated in the risk of death. In such case the benefit of the insurance expires.

- 10.6 The following definitions shall apply to the beneficial entitlement referred to in the policy:
- a. Spouse: The spouse at the time of death;
 - b. Registered partnership: The registered partner at the time of death;
 - c. Children: The legal, legitimate and adopted children, as well as the legal, legitimate and adopted descendants of predeceased children at the time of substitution; the distribution among them shall be in proportion to each other;
 - d. Heirs: Those who by inheritance or by law are entitled to participate in the estate, including their heirs and successors under universal succession; the apportionment between them shall be on the basis of the proportion in which they are entitled to participate in the estate.

10.7 A beneficiary can accept a beneficial entitlement by means of a written notification to the insurer signed by it and by the policyholder. The insurer shall record the acceptance on the policy.

11. Risk of war and terrorism

11.1 From the moment that a state of war occurs in the future in one or more parts of the jurisdiction of the European Union, regardless of whether or not the insured is in military service at that time, the insured amount will be reduced by 10% of the amount insured at that time, for as long as the state of war persists.

11.2 Article 11.1 will not be applied if within six months of the termination of the state of war (within the European Union) but at the latest when any amount insured by this insurance becomes due and payable, it is demonstrated to the satisfaction of the insurer that throughout the duration of the state of war the insured person resided in the territory of a country or of one or more states outside the European Union, which was not at war during that time and where no act of war took place during that time.

11.3 No later than nine months after the end of the financial year in which the state of war was ended, the insurer shall pay out all or part of the discounts already withheld and shall cancel all or part of the discounts imposed for the future.

11.4 The presence, as well as the times of commencement and termination of the state of war referred to in this article, shall be determined by the Dutch Central Bank in a binding manner.

11.5 The risk of terrorism is reinsured at the Nederlandse Herverzekeringsmaatschappij voor Terrorismeschade N.V. (NHT). The clause sheet for terrorism coverage of the NHT is applicable to this insurance. If the death of the insured was to be the result of terrorism then the insurer will pay the amount it receives from the NHT as a result of death of the insured person. It is possible that this amount is lower than the insured amount.

Terrorism risk means:

- terrorism, malevolent contamination or preventative measures;
- actions or behaviours in preparation of terrorism, malevolent contamination or preventative measures.

The full Clause sheet for terrorism coverage at the NHT can be found on www.terrorisneverzekerd.nl.

eenvoudig transparant

Policy conditions

TAF Special Life Insurance

12. Premium payment

12.1 The first premium for this insurance is due from the commencement date of the policy. Each and every subsequent premium is payable on the premium due date. For insurance with periodic premium payment per month or year, the premium is automatically debited at the beginning of the month from the specified IBAN.

12.2 If, for whatever reason, the follow-up premium is not paid on time, there is, after a reminder, still one month to pay it. If the subsequent premium including costs is not paid to the administrator in full within the said period, the cover is suspended automatically from the premium due date until the premium arrears are paid to the administrator in full. An event during the period that the cover is suspended and that results in entitlement to a benefit on the basis of this insurance is not covered. Moreover, the insurer shall be entitled to terminate the insurance. Already paid premiums shall not be repaid. In case of a pledged policy, the insurer will inform the pledgee of the lapse of the policy.

12.3 Any and all judicial and extrajudicial costs that are incurred by the insurer for the collection of overdue premium instalments and possible statutory interest due shall be borne by the policyholder.

12.4 Duration of the premium payment:

a. If a constant capital has been ensured, the duration of the premium payment is equal to the duration of the insurance.

b. In case of a declining linear capital or an annuity declining capital the duration of the premium payment will amount to:

- 2/3 of the duration of the insurance in case of a duration of less than 13 years
- 5 years less than the duration of the insurance In case of a duration of more than 13 years.

12.5 If the policy schedule states that the premium exemption for incapacity for work is co-insured, the additional policy conditions for the premium exemption for incapacity for work ACE-PVA 03-2020 will apply.

13. Pledges, pawning, surrender, premium release and premium refund

13.1 The policyholder can pledge or transfer the rights and obligations arising from this insurance agreement to another party. If the rights have been pledged previously, the permission of the existing pledgee(s) is required for a further pledge.

13.2 No transfer, addition, pledge or modification of the insurance contract shall be effective until a statement signed and dated by the insurer has been placed on the policy.

13.3 The insurance cannot be lent.

13.4 The insurance has no surrender value.

13.5 There is no profit-sharing in the insurance. This means that the policyholder and beneficiary are not entitled to profit-sharing.

13.6 The insurance cannot be made premium-free. This is because the insurance does not have a non-contributory value because the premium includes a discount for the chance of premature termination.

13.7 If an insurance policy with monthly payments ends as the exclusive result of an event as referred to in article 4.3.f, then there is no right to a premium refund.

13.8 If an insurance policy with annual payments ends as the exclusive result of an event as referred to in Article 4.3.f, then there is a right to a refund of the unused part of the annual premium.

eenvoudig transparant

Policy conditions

TAF Special Life Insurance

14. Recovery of costs and taxes

14.1 The insurer is entitled to charge the policyholder or beneficiary all taxes and levies relating to this insurance that are owed by the policyholder or beneficiary to the government or for which the insurer has a statutory duty to withhold taxes, to the policyholder or beneficiary. This can be done by deduction from the amount to be paid out.

14.2 If the policyholder or beneficiary owes taxes to a foreign government, it is the responsibility of the policyholder or the beneficiary to report the property of this insurance and pay possible indebted taxes or levies to the foreign authorities (government, tax authorities etc.).

14.3 Contrary to Article 14.2, possible (tax) levies abroad in the context of a payment under this insurance as a result of the fact that the insurer is established in a country other than the Netherlands shall be for the account of the insurer. During the term of this insurance, it is not possible to deviate from this rule.

14.4 The medical examination costs will be borne by the policyholder if the prospective insured person can be accepted after a medical examination without additional exclusions or surcharges, but the policyholder or the insured waives this.

15. Fraud

15.1 Fraud (fully or partly) always implies that no payment will be made on the basis of the insurance taken out. A potential already paid benefit (plus any and all (research) costs incurred) will be claimed back and will be immediately due and payable by the insurer. Fraud may also imply that:

1. a report is filed with the police;
2. the insurance(s) is (are) terminated;
3. registration takes place in the common warning systems in place between insurance companies.

16. Forfeiture of rights and prescription

16.1 An action against the insurer to make a payment shall be time-barred, except in the case of an interruption of the limitation period, by the lapse of five years after the day on which the claim has become due and payable.

16.2 The limitation period shall be interrupted by a written communication in which payment is claimed. A new limitation period shall commence on the day on which the insurer either acknowledges the claim or unambiguously states that it has rejected the claim.

17. Change of policyholder

17.1 The policyholder can be replaced by another person to whom all his rights as the policyholder are transferred. The change will take effect from the moment that the insurer has noted this on the policy.

18. Change of beneficiary

18.1 The policyholder has the authority to appoint another beneficiary during the life of the insured person. However, if the beneficiary has declared, with the written consent of the policyholder, that he accepts the benefit of the contract, the policyholder can exercise his rights under the contract only with the cooperation of the beneficiary, who has so accepted. The change will take effect from the moment that the insurer has noted this on the policy.

19. Change of address and processing of personal data

19.1 Correspondence to the policyholder(s), insured person(s) and beneficiary (beneficiaries) shall exclusively be conducted in Dutch.

Policy conditions

TAF Special Life Insurance

eenvoudig transparant

19.2 The policyholder is held to inform the insurer within 1 (in words: one) month of each and every change of address of both the policyholder and the insured person. Notifications by the insurer to the policyholder are sent directly to his address lastly known to the insurer or failing a known address, to the address of the broker who provided broking services for the conclusion of the agreement.

19.3 The policyholder is held to inform the insurer within 1 (in words: one) month if the policyholder and/or the insured person no longer reside in the Netherlands and/or are no longer registered as such in the BRP.

19.4 In case of a notification by the insurer and/or the administrator to an interested party in respect of the insurance, a non-registered letter to be sent to the address lastly communicated to the insurer by the interested party can suffice.

19.5 Correspondence to the insurer must be addressed to:
Chubb Life Europe SE
p/a TAF BV (administrator)
Postbus 4562, 5601 EN Eindhoven, The Netherlands

19.6 The insurer and the administrator process personal data for the conclusion and implementation of the insurance agreement, for the administration of the relationships deriving from the same, for activities aimed at the expansion of the customer base, for statistical analyses, to comply with statutory obligations and in the context of the safeguarding of the security and integrity of the financial industry, our organisation, employees and clients. It may be that personal data are transferred to a receiver in a country outside the European Economic Area. The insurer and/or administrator shall monitor that this kind of transfer is in accordance with the applicable legislation and regulations. The insurer and/or administrator remain responsible for these processing operations. Premium arrears can be outsourced to a collection agency that uses personal data for a credit worthiness screening. The insurer and the administrator shall see to it that the personal data

are only processed by companies that guarantee an appropriate processing level. The processing of personal data is in accordance with the General Data Protection Regulation. In addition, the Code of Conduct Personal Data Processing Insurers of the Dutch Association of Insurers. This code of conduct sets out the rights and obligations of the parties to the data processing. The complete text of the code of conduct is available on www.verzekeraars.nl. On www.taf.nl/privacy you can read more about the processing of personal data.

20. Provisional cover

20.1 For a period of up to 3 months, counting from the date on which the administrator received the application form, the insured is provisionally covered for death as the direct and exclusive result of an accident. From the date of issue of the declaration of acceptance, within the aforementioned period, the insured is also covered for death as the direct and exclusive result of an illness.

20.2 The provisional cover has a maximum insured amount of € 300.000, but is never higher than the amount due pursuant to Article 22.2 and 22.3 of these insurance conditions.

20.3 The terms and conditions, and in particular the general exclusions as laid down in Articles 6 of these terms and conditions, are applicable to the provisional cover.

20.4 The provisional cover shall not apply to the optional child cover and the optional accidental death benefit as described in Articles 8 and 9.

20.5 The provisional cover comes to an end:

- a. on the date of inception of the requested insurance that is specified on the policy schedule;
- b. if the requested insurance expires or is not accepted;

c. if the insurer informs the policyholder in writing of the termination of the provisional cover;

d. at the latest 3 months calculated as of the date that the administrator received the application form.

20.6 If the conformation of receipt states that the insurance is related to a mortgage, a period of 6 months will apply to Articles 20.1 and 20.5.d instead of 3 months.

21. Notification of death

21.1 The policyholder, beneficiary and/or surviving relative is obliged to notify the insurer of the death of the insured party as soon as possible, but at the latest within 4 months after the death occurred. If this is not complied with, the insurer shall be entitled to withhold payment.

21.2 The insurer shall not be released from its obligation to deal with a report if it can be demonstrated that due to force majeure the report could not be made within the set period and that the insurer's interests were not harmed by the late report.

22. Insurance benefit

22.1 If the insured amount has become due and payable, the insurer shall pay out as soon as the insurer has received documents which, in its opinion, prove that and to whom any payment is due. The insurer has the right to retain these documents as its property.

22.2 In the event of the death of the insured person, the benefit amounts to a sum which is:

- a. if a constant amount is insured, equal to the insured amount as stated on the policy schedule;
- b. if a declining linear amount is insured, equal to an amount calculated based on a linear monthly repayment schedule;

c. if an annuity declining amount is insured, equal to an amount calculated based on a monthly annuity repayment schedule with an interest rate indicated on the policy schedule.

22.3 If there is a right to a benefit, and the policy lists two insured persons, then the following applies:

- a. in the event of death of one of the two insured persons, a payment will be made equal to the insured amount that applies to the insured person who dies first;

- b. in the event of simultaneous death and equal insured amount per insured person, only one payment will be made equal to one times the insured amount;

- c. in the event of simultaneous death and different insured amount per insured person, only one payment will be made equal to one times the highest insured amount.

22.4 When a diagnosis of a terminal illness has been made, the insurer will pay the beneficiary 50% of the insured amount up to a maximum of € 100.000 on one insured life. The insurance remains in force for the difference between the insured amount specified in the insurance and the benefit paid in respect of terminal illness, on condition that the payment of the premiums is continued. The outstanding insured amount will be paid out upon the death of the insured.

22.5 Articles 2.5 and 7 lapse after a payment as referred to in Article 22.4. It is not possible to make any changes to the insurance.

22.6 In the case of a pledged policy, the insurer will request approval from the pledgee. The payment referred to in Article 22.4 will only take place after permission from the pledgee.

22.7 No benefit referred to in article 22.4 shall not be paid if:

- a. the diagnosis is made within 12 months before the end date of the insurance;

b. the insured person's age in the event of a claim for benefits on account of terminal illness is 65 years or older.

22.8 The payment will be reduced by any premiums and/or costs still due that are for the account of the policyholder.

22.9 The insurer is always entitled to claim back undue payments.

22.10 Payment shall be made by crediting a IBAN designated by the entitled party to a bank institution established in the Netherlands or in another member state of the European Union, using a legal Dutch method of payment.

23. Obligations in the event of damage and supporting documents

23.1 To determine the right to payment and the beneficiary, the administrator has to receive, among other things, the following documents:

- a. an original extract from the death register or other legal proof of the insured person's death;

- b. a declaration by the beneficiary and/or doctor regarding the cause of the death of the insured person;

- c. a written request for payment with the name and date of birth of the beneficiary or beneficiaries included in the policy and their own IBAN(s);

- d. if a claim is made for an additional pay out in the event of accidental death as referred to in article 9: a statement regarding the cause and circumstances of the death. Furthermore, there is an obligation to inform the insurer immediately - in any case before the burial or cremation - of the accident. This notification must include details such as the nature, location, time, and cause of the accident, and the circumstances under which the accident

occurred. Moreover, the names of any witnesses present at the accident must be provided.

The insurer must, upon request, be given the opportunity to investigate the cause of death and to perform whatever it deems necessary for this purpose.

23.2 The insurer may retain the submitted documents as its own. The insurer can request or obtain additional information or evidence if deemed necessary to determine entitlement to a benefit or the amount of the benefit. As long as the insurer has not received this information or evidence, the insurer is entitled to suspend a payment.

23.3 The insurer will proceed to pay the insurance benefit in return for full discharge, signed jointly by all interested parties or their legal representatives.

23.4 The policyholder and the insured party are obliged to cooperate in determining the ultimate interested party of a (legal) person who is interested in the insurance. This applies both at the time the insurance is taken out and in the event of any payment.

23.5 If the ultimate beneficial owner changes during the term of the insurance, the policyholder and/or the insured will be obliged to report this immediately to the insurer.

24. Applicable law and complaints handling

24.1 For complaints in relation to this insurance, the interested party may address the administrator in writing. If the parties fail to reach agreement, the interested party may, within one year of the date on which the complaint was submitted to the administrator or the insurer or within three months of the date on which the letter or notice in which the administrator or insurer expresses a definitive opinion on the complaint was sent, turn to:
The Financial Services Complaints Institute (KIFID)
P.O. Box 93257,
2509 AG The Hague
Telephone 0900 - FKLACHT (0900 - 3552248)
www.kifid.nl
The longest of the two periods mentioned above applies.

24.2 If the interested party does not wish to make use of the possibilities referred to in Article 24.1 or if the complaint handling or its outcome is not satisfactory to the interested party, the interested party may submit the content of the dispute to the competent court, unless a binding opinion was issued.
